# LAB: 4

## TASK 1:

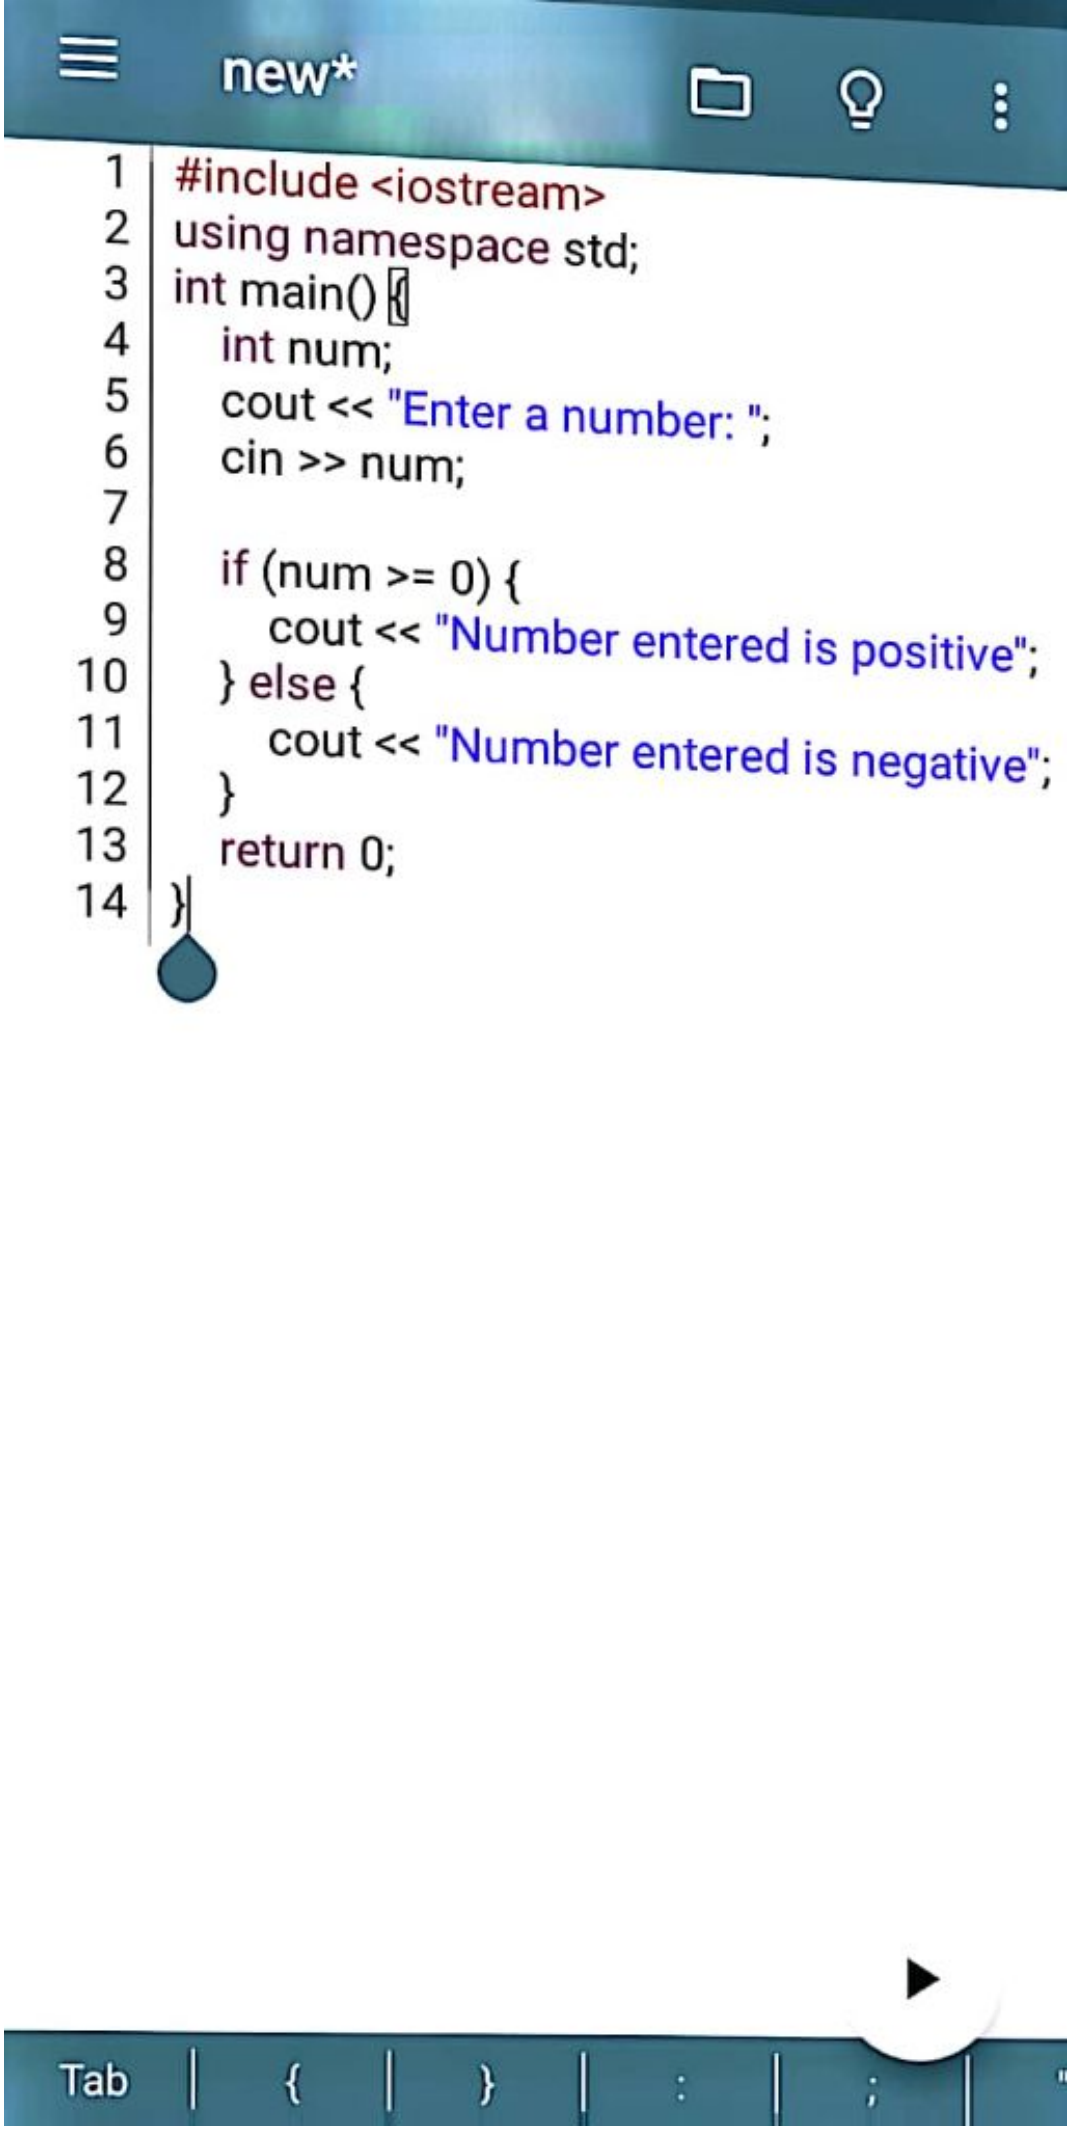

```
#include <iostream>
using namespace std;
int main () {
int num;
cout << "Enter a number:";
cin >> num;
if (num >=0) {
cout<<"Number Entered is positive"; }
else {
cout << Number Entered is nagitive"; }
return 0;
}
```

## output:

Enter a number =12

Number Entered is positive.

# TASK : 2

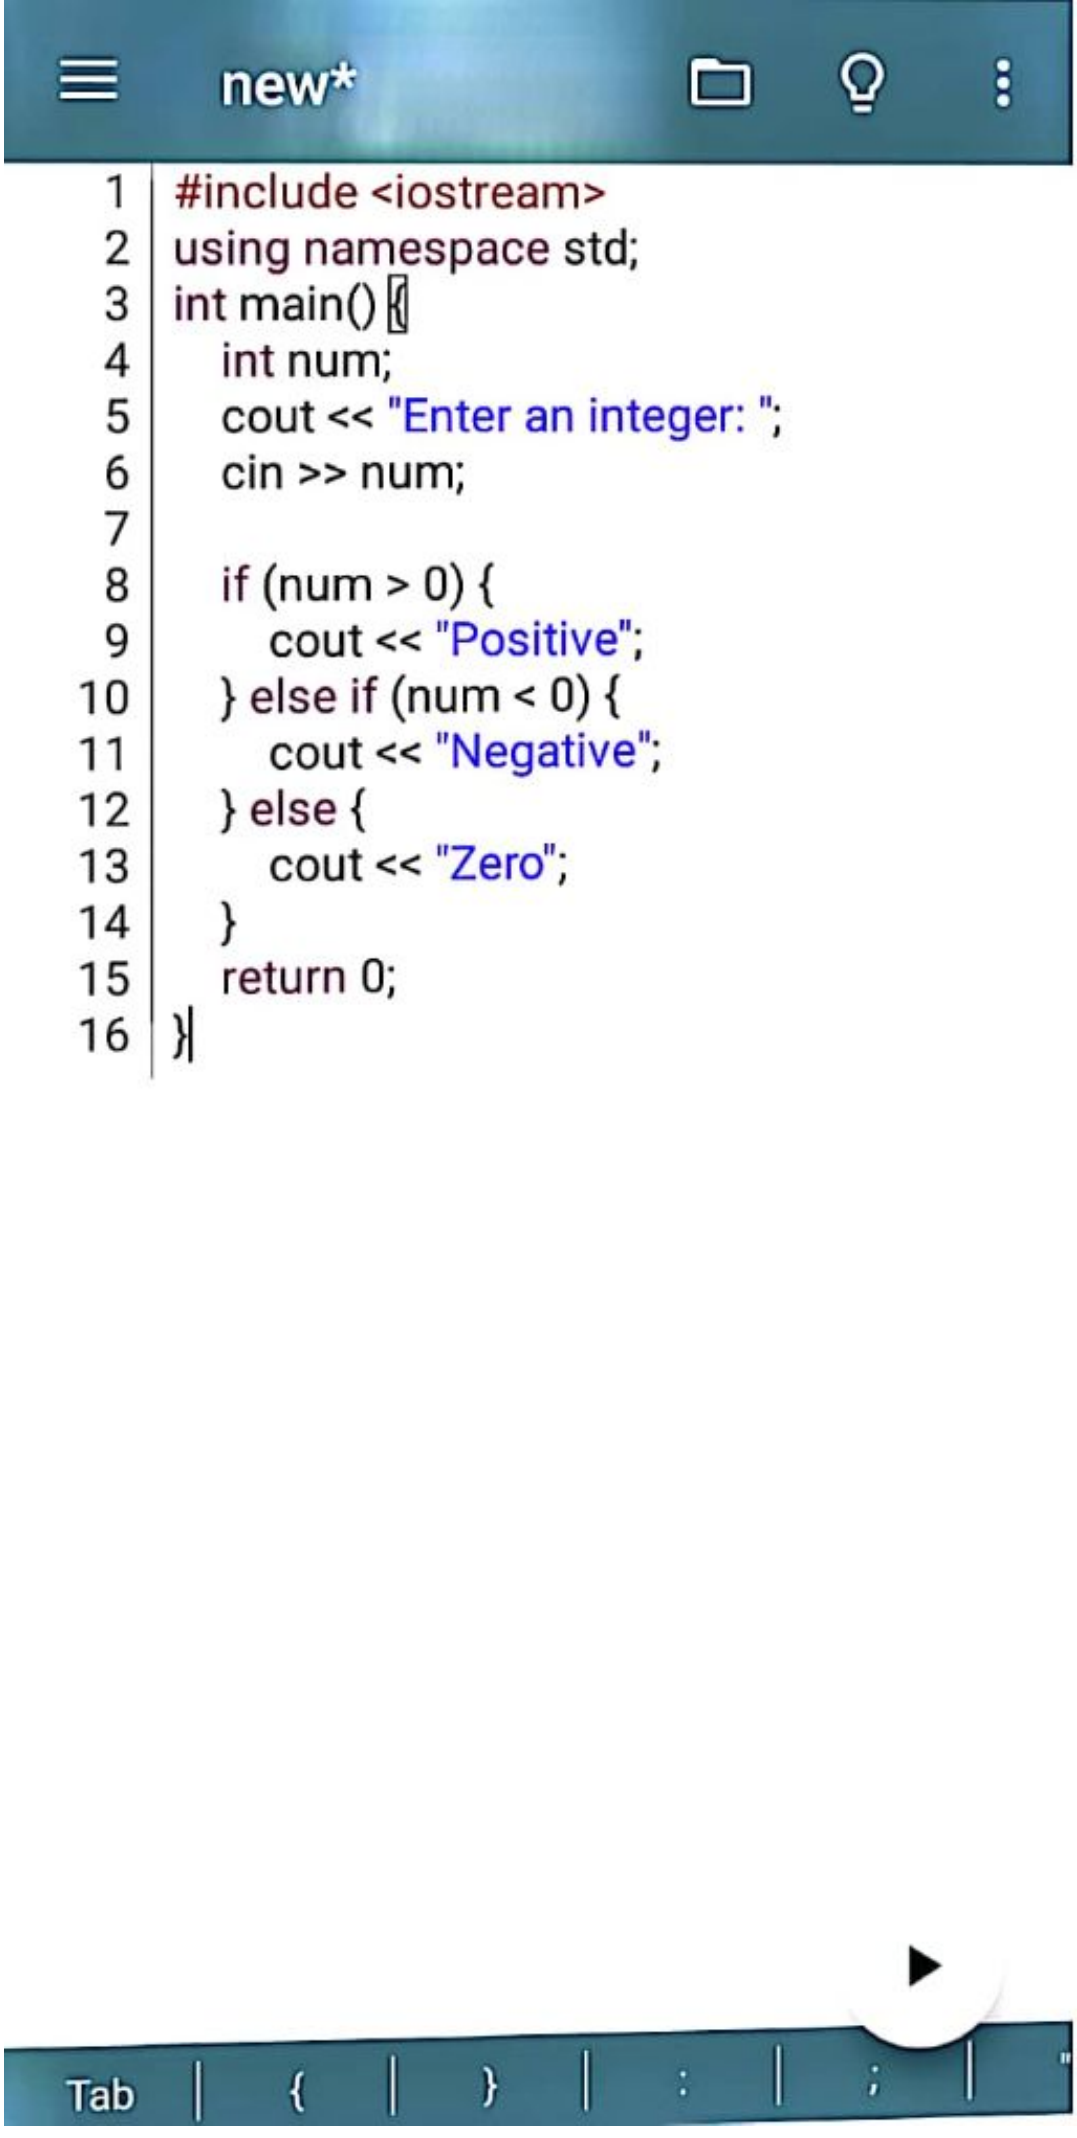

```
#include <iostream>
using namespace std;
int main () {
    int num;
   cout << "Enter an integer:";
    cin >> Num;
     if (num>0){
     cout<<" positive";
              }
     else if (num<0) {
      cout <<"Nagitive"; }
       else {
        cout<<" zero";
        return 0; }
              }
```

**Output:-**

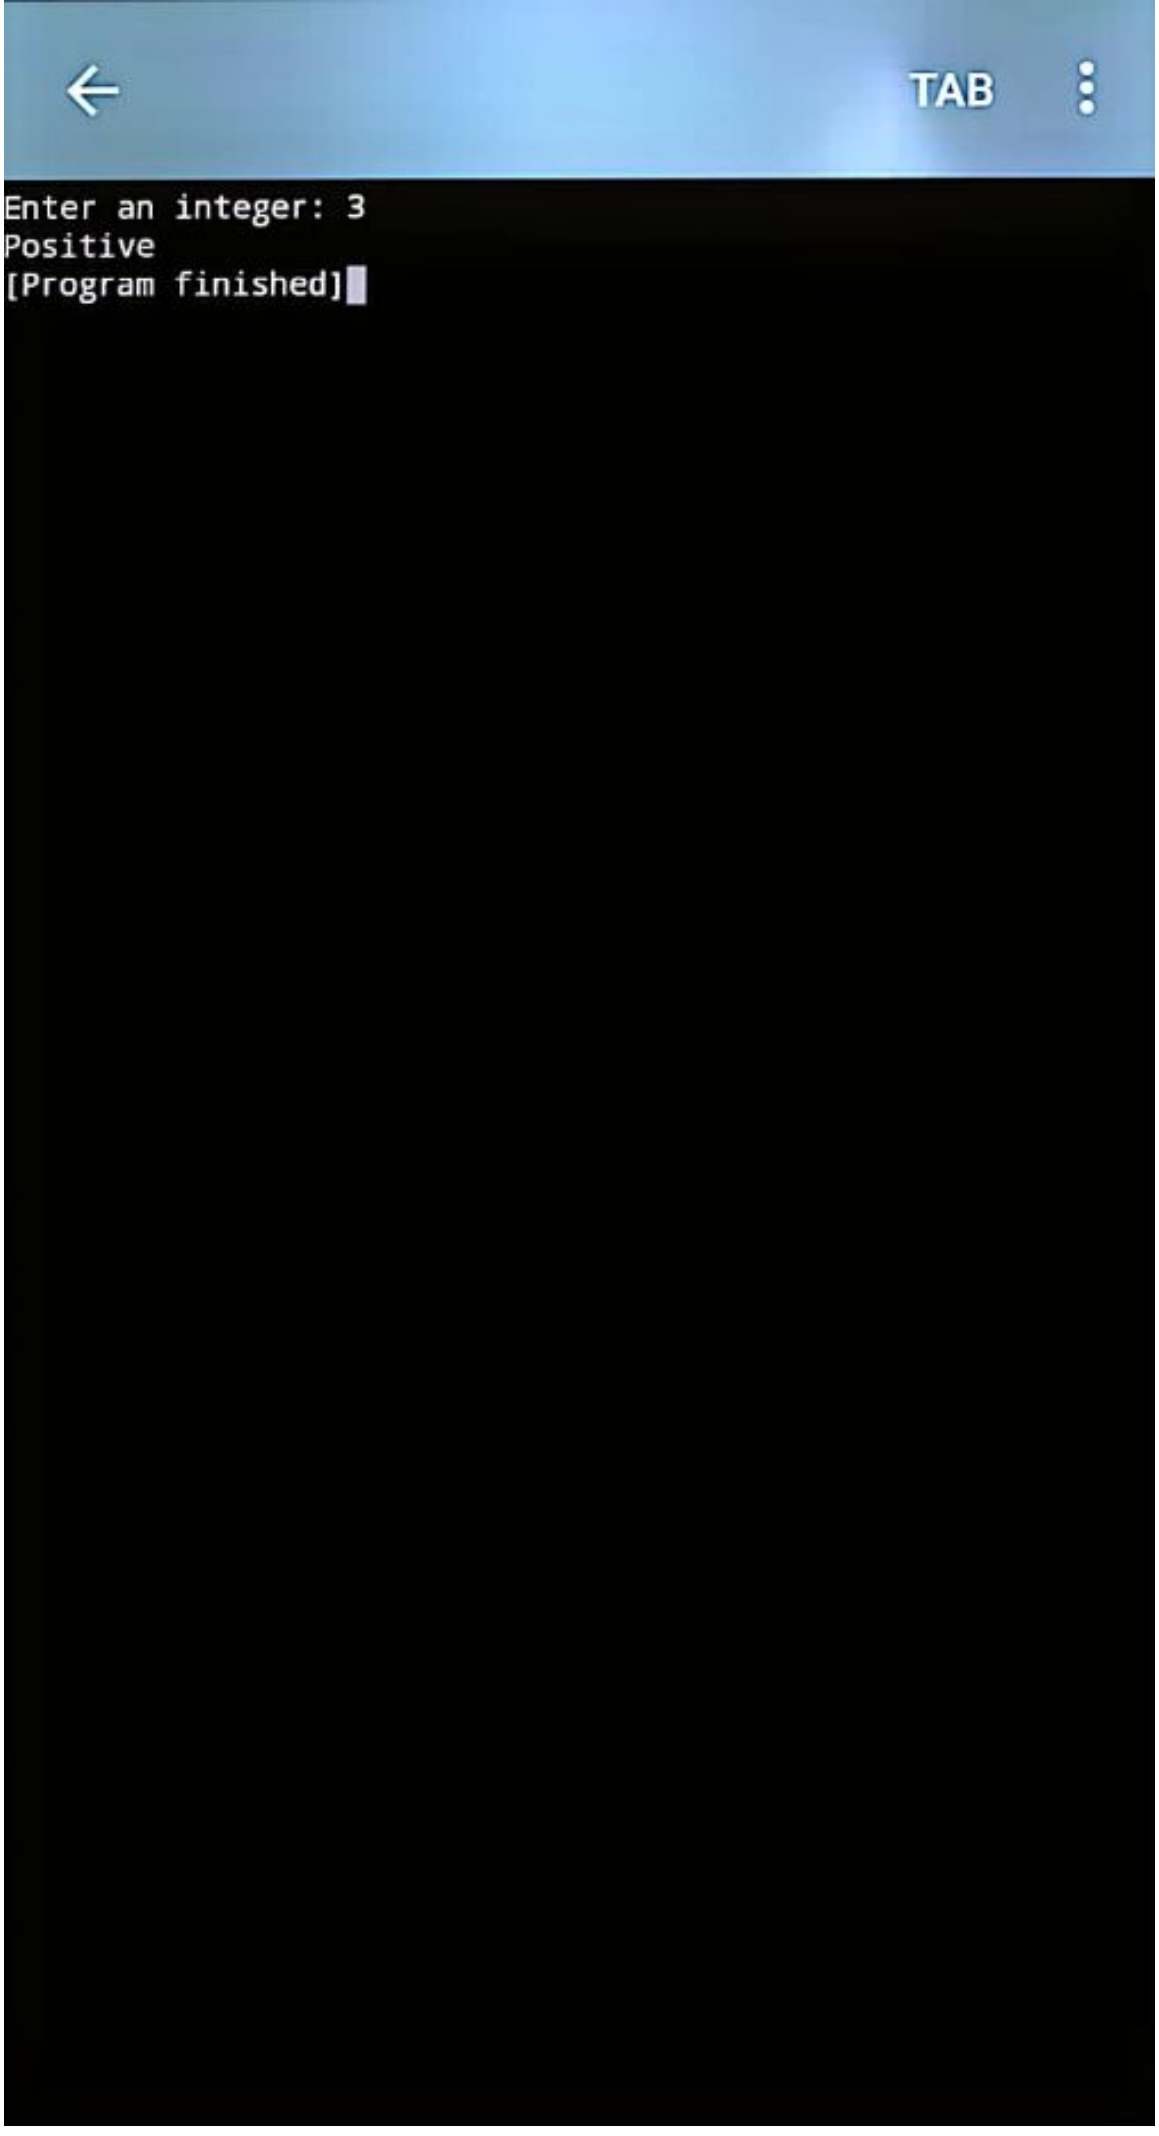

Enter an integer : 3

Positive
